The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Bulgrin (US Patent 5,456,870).

Bulgrin discloses a temperature control system to effect heat transfer of injection cylinder heaters 20 using PID controllers 30a-d to detect a rate of heat generation by the heaters, storing means are used to store the rate of heat generation (column 17, lines 25-27, 50-53; column 19, lines 25-30) and display means 28 for displaying the stored rates to be conventional.
